

**Guidelines for a safe travel to the Azores**  
**AZORES COVID-19 UPDATE**  
**22<sup>nd</sup> of February 2021**

The European Best Destinations, cultural and tourist organization, considered the Azores archipelago as a “European Safest Destination” for 2021, a guarantee of safe and sustainable experiences.

The commitment of all the shareholders, to comply with the guidelines and good practices for safe travel and safe stay in the Azores, certifies the access to experience all the adventures nature has to offer on land and sea and the special care and hospitality provided to visitors. ## TRAVELLING TO THE AZORES

- Passengers wishing to travel to the territory of the Autonomous Region of the Azores, by air or by sea, and who come from areas considered by the World Health Organization to be areas of active community transmission or with active transmission chains of the SARS-CoV-2 virus, are required to present, prior to boarding, a certificate, in digital or paper format, of a document issued by an recognized laboratory, national or international, to carry out a diagnostic test to SARS-CoV-2 with negative result.
- Extending the stay on any of the islands of the archipelago for seven or more days, or for thirteen or more days, the passenger must, on the 6th and 12th days, respectively, counting from the date of the SARS-CoV-2 screening test, contact the Health Authority of the municipality where one resides or is staying ([https://covid19.azores.gov.pt/?page\\_id=1426](https://covid19.azores.gov.pt/?page_id=1426)), with the objective of carrying out a new SARS-CoV-2 screening test, supported by the local Health Authority, which result will be communicated by the means assumed by that entity.

### **Exceptions to the mandatory presentation of the test:**

- Passengers aged 12 years or less  
(You can check other exceptions here: [https://destinoseguro.azores.gov.pt/?page\\_id=8908](https://destinoseguro.azores.gov.pt/?page_id=8908))

### **General travel information:**

The report of the examination carried out up to 72 hours before the flight departs, must contain the following information:

- a) Passenger identification;
- b) Name of the laboratory where it was carried out with reference to the respective certification;
- c) Reference to the use of the RT-PCR methodology;
- d) Date of the test;
- e) Test result as “negative”.

VISITAZORES.COM

- If your result is **negative**, you can travel and must register your trip on the My Safe Azores platform (<https://mysafeazores.com>) to allow faster control on arrival in the Azores.
- You must present the exam result at the time of check-in in digital or physical format, excluding the SMS format.
- The Autonomous Region of the Azores will assume all charges resulting from accommodation and meals for passengers disembarked in the Region, for compliance with mandatory confinement derived from POSITIVE result to SARS-CoV-2 and prophylactic isolation as a result of close contact with a POSITIVE SARS-CoV-2 case, when determined by the Health Authority.

### **INTER-ISLAND TRIPS DEPARTING FROM S. MIGUEL TO ONE OF THE OTHER ISLANDS**

In the case of an inter-island trip departing from São Miguel to one of the other islands, you must perform the COVID19 test, using the RT-PCR methodology, up to 72 hours before departure and only with a negative result you can travel.

If the test is carried out in a laboratory with an agreement with the Azorean Government, the Region will bear its cost. If the laboratory is not in the list of agreement, the passenger will have to bear the cost.

You must make the appointment for the test by phone and attend the laboratory, following the instructions they will give you, through one of the contacts below:

- **S. Miguel Island**

Ponta Delgada

**Germano de Sousa** - Travessa da Graça 1-3 (+351) 930 573 354, (+351) 296 284 713;  
Coordenadas - 37.74105, -25.66466

VISITAZORES.COM

**Maria Teresa Paiva Forjaz Sampaio, Lda.** - Rua Padre César Augusto Ferreira Cabido 37, 9500-338 (+351) 296 650 960.

Coordenadas - 37.74393, -25.66321

#### Lagoa

**Germano de Sousa** - Tecnoparque da Lagoa – (+351) 930 573 354, (+351) 296 284 713.

Coordenadas - 37.74562, -25.57480

If your result is **positive**, do not go to the airport and contact the Azores Health Line at 808 24 60 24.

If your result is **negative**, you can travel and must register your trip on the My Safe Azores platform (<https://mysafeazores.com>) to allow faster and more efficient control.

#### **Exceptions to the mandatory presentation of the test:**

- Passengers aged 12 years or less;
- Passengers departing from the islands classified as high and medium risk of transmission and who, for reasons of delay or trip cancellation, when boarding or stopover, exceed the 72 hours of validity of the test done at the origin, being obliged to undergo screening for SARS-CoV-2, using the RT-PCR methodology, on arrival at the island of destination, as well as prophylactic isolation, until the negative result is communicated, within a maximum period of 24 hours;
- Passengers departing from an island considered to have the lowest transmission risk and who, in transit to the final destination island, land at the airports of islands classified as high and medium transmission risk, provided that they do not travel on the “air” side to the “land” side, in the terminological sense used in national airports;
- Passengers departing on an island classified as having the lowest risk of transmission and who, in transit to the final destination island, land at the airports of the islands classified as high and medium risk of transmission, on these circulating from the «air» side to the “land” side, in the terminological sense in use at national airports, being obliged to undergo screening for SARS-CoV-2, using the RT-PCR methodology, on arrival at the destination

VISITAZORES.COM

island, as well as prophylactic isolation, until be notified of the negative result, within a maximum period of 24 hours;

- Passengers departing from the mainland or from the Autonomous Region of Madeira and who, in transit to the final destination island, land at the airports of the islands classified as having the greatest risk of transmission, in these traveling from the «air» side to the “land”, in the terminological sense in use at national airports, being obliged to undergo screening for SARS-CoV-2, using the RT-PCR methodology, upon arrival at the island of destination, as well as prophylactic isolation, until communicated to them the negative result, within a maximum period of 24 hours;
- Passengers traveling from any island classified as having the lowest risk of transmission to the islands classified as high and medium risk of transmission, returning within a period of up to 72 hours, being, at that moment, obliged to undergo screening for SARS-CoV-2, using the RT-PCR methodology, as well as prophylactic isolation, until the negative result is reported to them, within a maximum period of 24 hours.

(You can check other exceptions here [https://destinoseguro.azores.gov.pt/?page\\_id=8908](https://destinoseguro.azores.gov.pt/?page_id=8908))

### **MEASURES FOR ALL ISLANDS**
